PDF definitions

Portable Document Format (PDF) is a file format developed by Adobe Systems for representing documents in a manner that is independent of the original application software, hardware, and operating system used to create those documents. A PDF file can describe documents containing any combination of text, graphics, and images in a device independent and resolution independent format. ...

You should convert the following documents into PDF format before uploading them to the Resource Gallery:

- Factsheet
- Form
- Poster, Brochure, Pamphlet
- Manual
- Publication
- Reports
- Minutes
