

Thunder Bay District Health Unit

Presentation Outline

**Smart and Not So Smart Plastics**

This hands-on activity was created to provide participants with an opportunity to discuss and understand the various types of plastics, their proper use and disposal as well as associated health risks. There has been increased media exposure regarding the health risks associated with certain types of plastics. This activity will encourage the participants to:

- Understand the environmental and health hazards associated with each type of plastic particularly in children and pregnant women
- Learn about safe use and disposal of plastics
- Provide an opportunity to discuss alternative products

**Presentation Length:** Usually 1 hour but can be tailored to your organization needs

**Cost:** Free of charge
