

Maintain the Cold Chain – Part 4

A learning module for those who transport and handle vaccines

**Thunder Bay District
Health Unit**

PART 4

Part 4 includes:

- Section 6 – Storing Multi-dose Vials
- Section 7 – Resources

Section 6

Storing Multi-dose Vials

Thunder Bay District
Health Unit

Multi-dose Vials

Mark the date the first dose was drawn on all multi-dose vials.

- All multi-dose vials are stable for a specified period of time after the first dose is drawn. Please refer to the product monograph for this information.

Put any unused vaccine back into the refrigerator immediately after the required dose is drawn up.

Return any vaccine that is past the specified date by using the *Vaccine Return Authorization* form. See Part 3 (Section 5) for more information on expired vaccines.
