

CHILDHOOD IMMUNIZATIONS & SCHOOL

The Health Unit needs your child's immunization (vaccine) record, or a valid exemption, as certain vaccines are required by law for school attendance.

You will receive a notice from the Health Unit if your child is overdue for an immunization or immunization dates are needed to complete their record.

Any missed vaccines are available through your health care provider or at the Health Unit by appointment.

As of September 2015, the Health Unit no longer provides vaccines at school to children in SK to Gr. 6. However, the Health Unit will continue to provide vaccines at school to Gr. 7 & 8 and high school students.

For more information, to submit records or to schedule an appointment, please call 625-5900. Records can be updated online through our secure website: updatevaccinerecord.com
